Drigganita Panchaanga calculations by Pandit Mahesh Shastri, (C) Copyright mypanchang.com. No parts can be copied or reproduced in any form without prior permission of mypanchang.com

Notes:

1. The sunrise and sunset times are middle of the disk rising which is used for astrological purposes.
 2. The newspaper sunrise cannot be used for astrological/muhurtha purposes.
 3. The + (plus sign) right next to the time means time after midnight (next english date). As Indian day is from one sunrise to another sunrise.
 4. The Tithi, Nakshatra, Yoga, and Karana times are end times where as Chandra and Surya Rasi change time are Pravesha time (begining).
 5. When the end time or start time denotes time greater than 24 hours then its next day after midnight but before nextday sunrise in that case subtract 24 from the time.
